**Sankt Augustin, Germany – July 8, 2024** – ICONICS announces its strategic alliance with WISAG, a German multi-service company operating in the Facility Service, Industrial Service, and Aviation Service divisions. The alliance combines WISAG's extensive experience and expertise in constructing modern building control systems with ICONICS advanced building automation software.

Markus Paluszkiewicz, Product Manager at WISAG Automatisierungstechnik commented, "We are delighted to be working with ICONICS. By integrating the ICONICS platform, we are not only advancing our existing solutions, but also realizing new innovative solutions for smart buildings that will shape the future of building technology."

"We are excited about this alliance and the possibilities it will bring. WISAG's in-depth project knowledge ideally complements our software development expertise. This enables end users to implement holistic smart building projects that are both building-centric (BMS, MBE, energy management, and fault analysis) and people-centric (comfort, room bookings, and building experience)," added André Lange ICONICS Managing Director of the DACH region.

With an emphasis on developing management and operating devices (MBE), ICONICS and WISAG aim to combine their technology and knowledge to develop intelligent building control systems to advance energy efficiency and sustainability as well as user safety and comfort.

## **About WISAG**

[WISAG](#), headquartered in Frankfurt am Main, is an owner-managed multi-service company operating in the Facility Service, Industrial Service and Aviation Service divisions. It provides a wide range of services for office, commercial and residential properties, for industry as well as for airlines and airports. WISAG combines the creativity, agility and down-to-earth attitude of a medium-sized company with the strengths of a family-owned group. The entire WISAG Group employs over 50,000 people at more than 250 locations in Germany and abroad. The company was founded in 1965 by Claus Wisser in Frankfurt am Main and is now managed by the second generation, Michael C. Wisser.

The specialists at WISAG Automatisierungstechnik check the energy and cost efficiency of building technology systems. Modern automation technology prevents system errors and secures processes. The engineers create small to highly complex building automation systems from the field level to the control level.

## **About ICONICS**

ICONICS, Inc., a group company of Mitsubishi Electric Corporation, is headquartered in Foxborough, Massachusetts USA and is a global software developer of visualization, HMI, SCADA, and energy solutions. With installations running in over 100 countries worldwide and over 70 percent of Global 500 companies, ICONICS software is recommended for automating, monitoring, and optimizing a customer's most critical assets. ICONICS offers competitive software products for various business sectors, such as manufacturing, industrial and building automation, and it possesses advanced technology and remarkable industry leading knowledge in the development of industrial software. ICONICS is a seven-time Microsoft Partner of the Year award winner and has been recognized twelve times for a Microsoft Partner of the Year award.
